Summary

Frontend Developer with hands-on experience in React.js and Next.js, focused on building clean, production-ready user interfaces and real-world web applications.

Work Experience

Meta Scifor Technologies   Oct 2025 - Jan 2026

Frontend Developer Internship

- Built responsive and reusable UI components for an LMS platform using React and Next.js.
- Followed clean component architecture and modern UI practices to improve usability.

Workites   Dec 2021 - Nov 2023

Photo Editor

- Performed professional photo editing including precise cropping, background removal, and color correction to ensure high-quality and visually consistent images.
- Specialized in jewelry image editing, delivering clean, studio-quality visuals through detailed product retouching and advanced color grading.

Technical Skills

Languages: JavaScript, TypeScript

Developer Tools: VS Code, Cursor, Postman

Technologies/Frameworks: Next.js, React.js, HTML, CSS, Tailwind CSS, Redux, Motion (Framer), Git, GitHub, Photoshop

Projects

Resume.ai – AI Resume Analyzer

Technologies: Next.js, TypeScript, Supabase, Tailwind CSS, Gemini, Shadcn/ui

- Built an AI-powered resume analyzer providing ATS scoring, role-based feedback, and smart improvement suggestions.
- Intelligent suggestions to improve content clarity, keywords, formatting, and overall resume impact.
- Voice-enabled resume analysis with text-to-speech support, enhancing accessibility and user experience.
- Secure authentication system with protected routes and user-based resume history management.
- Real-time feedback with a modern, responsive UI built using shadcn/ui and Magic UI, featuring dark mode support.

Music Website

Technologies: React.js, Api, Tailwind Css, Motion

- Smooth audio playback with play, pause, next, and previous controls, along with Dark Mode support.
- Playlist management (create, rename, delete) using localStorage with favorites, shuffle, repeat, and voice search.
- Mini player with full controls that stays visible for a seamless listening experience

E-commerce Website

Technologies: React.js, Redux, Tailwind Css, Motion

- Browse products by category or search with dynamic filtering for quick access.
- Cart management with add/remove, quantity control, Redux and Framer Motion animations.
- Improved user experience with Dark Mode, toast alerts, responsive design, and sidebar navigation.
